JUNIOR SOFTWARE DEVELOPER

AGILE TRAINED | ANALYTICAL | CODING & DEBUGGING

- Results-oriented student of Software Engineering Technology Advanced Diploma, with applied project experience in full-stack development, database management and testing support
- Demonstrated skill in object-oriented programming, user-oriented design, and applying the SDLC
- Highly skilled problem-solver with strong analytical skills used for debugging and troubleshooting
- Multilingual in English, Spanish; uses strong communication skills to support clients and effectively relay technical solutions to non-technical personnel

TECHNICAL SKILLS

Programming:	Java, SQL, C#, JavaScript, HTML/CSS, Python
Frameworks & Libraries:	React, Express, Node.js, Django
Operating Systems:	Unix, Linux, Windows
Development Tools:	Git, Visual Studio Code, IntelliJ, Kotlin, Eclipse

EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma   Sept. 2024 - Present
Centennial College, Toronto, ON   *GPA: 4.3/4.5 (A+)*

- *Key Courses:* | QA & Testing | Java Programming | Web Interface Design | Software Requirements | Database Concepts (SQL) | Client-Side Web Development | C# Programming | Mobile Development

SELECT ACADEMIC PROJECTS

Web Design - C#, HTML, JavaScript
- Designed a responsive, user-oriented restaurant menu website to showcase food items and specials.
- Created an interactive scrolling menu, contact/order form, and mobile-friendly responsive design.

Software Requirements Specification Document - *Study Buddy Mobile App*
- Collaborated in a team using Agile practices for the development of an SRS document for Study Buddy, an educational app designed to enhance learning through AI-powered features.
- Contributed to creating UML, domain class, sequence, and state diagrams, as well as functional and non-functional requirements.
- Helped define features such as AI virtual assistant, mock exam generation, progress tracking, and performance analytics.

Retail Database - SQL
- Led a team project to design and implement a relational database modeled after an e-commerce platform
- Oversaw task allocation, coordination of activities, and milestone tracking throughout development.
- Contributed to entity-relationship modeling, database schema creation, and SQL queries for data retrieval, updates, and testing.

- Ensured project deliverables met requirements through documentation, QA, and final submission

PROFESSIONAL DEVELOPMENT

AWS Cloud Practitioner | [Certificate](#)   In Progress
Solutions Architect Associate | [Certificate](#)   In Progress
Developer Associate | [Certificate](#)   In Progress

WORK EXPERIENCE

Customer Service Associate (Part-Time)

Psycho Bunny — Sales Associate (Jan. 2025 – Present)
- Delivered tailored customer service in a premium retail environment, leveraging product knowledge and digital POS systems to ensure efficiency.

- Supported daily operations, including inventory control and data entry, strengthening accuracy and reliability.

- Adapted quickly to new retail technologies and processes, applying strong problem-solving skills to resolve customer and system issues.

Walmart — Omni Associate (Nov. 2021 – Oct. 2024)

- Coordinated online order fulfillment by using warehouse management and logistics systems.

- Troubleshot order discrepancies and worked with cross-functional teams to ensure customer satisfaction

- Applied time management and organizational skills to handle a high volume of requests daily.
